SUMMARY

Motivated Full Stack Developer specializing in the MERN stack, with hands-on experience gained through three bootcamps and a 3-month apprenticeship. Skilled in building web applications, collaborating with teams, and solving complex problems. Passionate about coding and eager to contribute as a Junior Developer in a dynamic environment. Seeking an entry-level role to further develop my skills, expand my portfolio, and grow my career in web development.

CERTIFICATIONS & COURSES

- **Full Stack Web Development** - ICT Training Institute, Lahore, Pakistan
- **The Complete 2024 Web Development Bootcamp** – By Dr Angela Yu
- **Full Stack Web Development MASTERY Course** – By Prerak Mehta
- **HarvardX: CS50's Introduction to Computer Science** – By David J Mallan

SKILLS & TECHNOLOGY STACK

Programming Languages: C, HTML, CSS, SCSS, JavaScript, TypeScript, SQL, OOP, DSA

Frontend: Bootstrap, TailwindCSS, Material UI, ReactJS, Redux, EJS, AJAX, JQuery

Backend: NodeJS, ExpressJS, SQL, SQLite, MongoDB, PostgreSQL

Tools & Techniques: API Design & Utilization, Responsive UI/UX, GitHub, Agile, Clean Code

WORK EXPERIENCE

- Engineered **10+ full-stack web applications** using the MERN Stack ensuring an optimal UI UX experience, responsive design and clean code practices.
- Developed **10+ reusable React Components** and modern features to streamline development and ensure code consistency, ultimately leading to UI/UX satisfaction.
- Reduced data retrieval times by 30% through efficient **API design and implementation**, optimizing backend performance and significantly decreasing loading times.
- Designed **pixel-perfect UIs** with TailwindCSS & Bootstrap with modern design principles.
- Implemented third party **libraries like Axios** for API calls and data fetching, ensuring seamless communication between frontend and backend.
- Built a **framework-free portfolio website** showcasing my projects, using only vanilla technologies, demonstrating strong foundational web development skills.

EDUCATION

- **MS Transportation Engineering** || NUST (H-12), Islamabad || 2020-2024
Modules: Use of Software (MATLAB, AutoCAD), Engineering Simulations
- **BS Civil Engineering** || NUST (H-12), Islamabad || 2012-2016
Modules: ICT Fundamentals, Computer Programming, Object Oriented Programming
